

# ACADEMIC PEDIATRICS

## Subject Index to Volume 12

### A

---

#### Abstracts

Association of Pediatric Program Directors (APPD) research abstracts 2012. 2012;12:e5-16

#### Accidents

Predictors of parental posttraumatic stress disorder symptoms in the year after adolescent traumatic injury (Martin-Herz et al). 2012;12:198-204

#### Adolescent

Burden of unmet mental health needs in assault-injured youths presenting to the emergency department (Anixt et al). 2012;12:125-30

Factors distinguishing youth who report self-injurious behavior: a population-based sample (Taliaferro et al). 2012;12:205-13

Predictors of parental posttraumatic stress disorder symptoms in the year after adolescent traumatic injury (Martin-Herz et al). 2012;12:198-204

In their own words: adolescent views on ADHD and their evolving role managing medication (Brinkman et al). 2012;12:53-61

#### Adult

Increasing adult Tdap vaccination rates by vaccinating infant caregivers in the pediatric office (Camenga et al). 2012;12:20-5

#### African Americans

African-American parents' trust in their child's primary care provider (Horn et al). 2012;12:399-404

#### Algorithms

Development of an algorithm for the diagnosis of otitis media (McConnochie). 2012;12:159-60; Shaikh et al). 2012;12:214-8

#### Americas

Giving power: what blood donation in cambodia taught me about care in America (Keating and Schumacher). 2012;12:257-8

#### Anecdotes as topic

Dr and Mrs (Leimena). 2012;12:15-6

#### Appendicitis

Is nonperforated pediatric appendicitis still considered a surgical emergency? a survey of pediatric surgeons (Dunlop et al). 2012;12:567-71

#### Asthma

Improving clinician self-efficacy does not increase asthma guideline use by primary care clinicians (Cloutier et al). 2012;12:312-8

Improving parental adherence with asthma treatment guidelines: a randomized controlled trial of an interactive website (Christakis et al). 2012;12:302-11

Improving pediatric asthma care: a familiar question and the search for new answers (Yee and Halterman). 2012;12:255-6

Learning from a distance: effectiveness of online spirometry training in improving asthma care (Stout et al). 2012;12:88-95

#### Attention deficit disorder with hyperactivity

Development of an instrument to measure parents' preferences and goals for the treatment of attention deficit-hyperactivity disorder (Fiks et al). 2012;12:445-55

Parental strain, parental health, and community characteristics among children with attention deficit-hyperactivity disorder (Hinojosa et al). 2012;12:502-8

In their own words: adolescent views on ADHD and their evolving role managing medication (Brinkman et al). 2012;12:53-61

Trends in attention deficit hyperactivity disorder ambulatory diagnosis and medical treatment in the United States, 2000-2010 (Garfield et al). 2012;12:110-6

#### Attitude of health personnel

Pediatricians' attitudes about collaborations with other community vaccinators in the delivery of seasonal influenza vaccine (Kempe et al). 2012;12:26-35

#### Autism; see Autistic disorder

#### Autistic disorder

Autism and hospitals: a difficult match (Megargel and Broder-Fingert). 2012;12:469-70

### B

---

#### Blood donors

Giving power: what blood donation in cambodia taught me about care in America (Keating and Schumacher). 2012;12:257-8

#### Bullying

Identifying children at risk for being bullies in the United States (Shetgiri et al). 2012;12:509-22

### C

---

#### Cambodia

Giving power: what blood donation in cambodia taught me about care in America (Keating and Schumacher). 2012;12:257-8

#### Caregivers

Increasing adult Tdap vaccination rates by vaccinating infant caregivers in the pediatric office (Camenga et al). 2012;12:20-5

#### Checklist

The Preschool Pediatric Symptom Checklist (PPSC): development and initial validation of a new social/emotional screening instrument (Sheldrick et al). 2012;12:456-67

#### Child

African-American parents' trust in their child's primary care provider (Horn et al). 2012;12:399-404

Assessment of health literacy and numeracy among Spanish-Speaking parents of young children: validation of the Spanish Parental Health Literacy Activities Test (PHLAT Spanish) (Yin et al). 2012;12:68-74

Assessment of parental report for 2009-2010 seasonal and monovalent H1N1 influenza vaccines among children in the emergency department or hospital (Poehling et al). 2012;12:36-42

Coparenting in teen mothers and their children's fathers: evidence from the early childhood longitudinal study-birth cohort (Lewin et al). 2012;12:539-45

Dietary and physical activity behaviors of New York City children from different ethnic minority subgroups (Vangeepuram et al). 2012;12:481-8

Employment, family leave, and parents of newborns or seriously ill children (Chung et al). 2012;12:181-8

Exercise intervention in childhood obesity: a randomized controlled trial comparing hospital-versus home-based groups (Lisón et al). 2012;12:319-25

And how are the children? (Etzel). 2012;12:161-2

Identifying children at risk for being bullies in the United States (Shetgiri et al). 2012;12:509-22

Inter-agency collaboration in the care of children with complex chronic conditions (Nageswaran et al). 2012;12:189-97

The medical home: relationships with family functioning for children with and without special health care needs (Arauz Boudreau et al). 2012;12:391-8

- Parent-reported quality of preventive care for children at-risk for developmental delay (Coker et al). 2012;12:384-90
- Parental strain, parental health, and community characteristics among children with attention deficit-hyperactivity disorder (Hinojosa et al). 2012;12:502-8
- Participation of children with special health care needs in school and the community (Houtrow et al). 2012;12:326-34
- The patient protection and affordable care act and the future of child health policy (Rosenbaum). 2012;12:363-4
- Potential savings from redetermining disability among children receiving supplemental security income benefits (Pulcini et al). 2012;12:489-94
- Racial/ethnic disparities in health-related quality of life and health in children are largely mediated by family contextual differences (Wallander et al). 2012;12:532-8
- The relationship of reported neighborhood conditions with child mental health (Butler et al). 2012;12:523-31
- The United States 2012 general election: making children's health and well-being a priority for the candidates (Coker et al). 2012;12:360-2
- Well-child care practice redesign for low-income children: the perspectives of health plans, medical groups, and state agencies (Coker et al). 2012;12:43-52
- Work experience and style explain variation among pediatricians in the detection of children with psychosocial problems (Theunissen et al). 2012;12:495-501
- Child, preschool**
- The frequency of outdoor play for preschool age children cared for at home-based child care settings (Tandon et al). 2012;12:475-80
- Nutrition education via a touchscreen: a randomized controlled trial in Latino immigrant parents of infants and toddlers (Thompson et al). 2012;12:412-9
- The Preschool Pediatric Symptom Checklist (PPSC): development and initial validation of a new social/emotional screening instrument (Sheldrick et al). 2012;12:456-67
- Child abuse**
- The SEEK model of pediatric primary care: can child maltreatment be prevented in a low-risk population? (Dubowitz et al). 2012;12:259-68
- Child health services**
- Well-child care practice redesign for low-income children: the perspectives of health plans, medical groups, and state agencies (Coker et al). 2012;12:43-52
- Child welfare**
- A proposed model curriculum in global child health for pediatric residents (Suchdev et al). 2012;12:229-37
- Residency training and use of strategies to promote community child health one year after graduation (Solomon et al). 2012;12:344-9
- The United States 2012 general election: making children's health and well-being a priority for the candidates (Coker et al). 2012;12:360-2
- Cholestasis**
- Neonatal cholestasis: opportunities to increase early detection (Palermo et al). 2012;12:283-7
- Chronic disease**
- Inter-agency collaboration in the care of children with complex chronic conditions (Nageswaran et al). 2012;12:189-97
- Clinical clerkship**
- Pediatric clerkship directors' social networking use and perceptions of online professionalism (Kind et al). 2012;12:142-8
- Validity of faculty and resident global assessment of medical students' clinical knowledge during their pediatrics clerkship (Dudas et al). 2012;12:138-41
- Clinical competence**
- International electives at the university of Minnesota global pediatric residency program: opportunities for education in all Accreditation Council for Graduate Medical Education competencies (Gladding et al). 2012;12:245-50
- Validity of faculty and resident global assessment of medical students' clinical knowledge during their pediatrics clerkship (Dudas et al). 2012;12:138-41
- Conflict of interest**
- Ethics and academic pediatrics (Szilagyi et al). 2012;12:9-12
- Continental population groups**
- Racial/ethnic disparities in health-related quality of life and health in children are largely mediated by family contextual differences (Wallander et al). 2012;12:532-8
- Cooperative behavior**
- Inter-agency collaboration in the care of children with complex chronic conditions (Nageswaran et al). 2012;12:189-97
- Cost-benefit analysis**
- Application of classic utilities to published pediatric cost-utility studies (Finnell et al). 2012;12:219-28
- The cost-effectiveness of universal newborn screening for bilateral permanent congenital hearing impairment: systematic review (Colgan et al). 2012;12:171-80
- Counseling**
- Accuracy of parental report and electronic health record documentation as measures of diet and physical activity counseling (Shaikh et al). 2012;12:81-7
- Curriculum**
- A proposed model curriculum in global child health for pediatric residents (Suchdev et al). 2012;12:229-37
- 
- D**
- Data collection**
- Emergency physician perspectives on child passenger safety: a national survey of attitudes and practices (Macy et al). 2012;12:131-7
- Exploring the choice to refuse or delay vaccines: a national survey of parents of 6- through 23-month-olds (McCauley et al). 2012;12:375-83
- Decision making**
- Fundoplication and the pediatric surgeon: implications for shared decision-making and the medical home (Fox et al). 2012;12:558-66
- Perceived barriers to care and attitudes towards shared decision-making among low socioeconomic status parents: role of health literacy (Yin et al). 2012;12:117-24
- Delivery of health care**
- Pediatricians' attitudes about collaborations with other community vaccinators in the delivery of seasonal influenza vaccine (Kempe et al). 2012;12:26-35
- A shot in the arm: not as simple as it would seem (Rand and Humiston). 2012;12:13-4
- Developmental disabilities**
- Does the persistence of development delay predict receipt of early intervention services? (McManus and Rosenberg). 2012;12:546-50
- Diet**
- Accuracy of parental report and electronic health record documentation as measures of diet and physical activity counseling (Shaikh et al). 2012;12:81-7
- Dietary and physical activity behaviors of New York City children from different ethnic minority subgroups (Vangeepuram et al). 2012;12:481-8
- Diphtheria-tetanus-acellular pertussis vaccines**
- Increasing adult Tdap vaccination rates by vaccinating infant caregivers in the pediatric office (Camenga et al). 2012;12:20-5
- A shot in the arm: not as simple as it would seem (Rand and Humiston). 2012;12:13-4
- Disability evaluation**
- Potential savings from redetermining disability among children receiving supplemental security income benefits (Pulcini et al). 2012;12:489-94

**Documentation**

Accuracy of parental report and electronic health record documentation as measures of diet and physical activity counseling (Shaikh et al). 2012;12:81-7

**Drug resistance, bacterial**

Development of an algorithm for the diagnosis of otitis media (McConnochie). 2012;12:159-60; Shaikh et al). 2012;12:214-8

**E****Early medical intervention**

Barriers to evaluation for early intervention services: parent and early intervention employee perspectives (Jimenez et al). 2012;12:551-7  
Does the persistence of development delay predict receipt of early intervention services? (McManus and Rosenberg). 2012;12:546-50  
Effectiveness of part C early intervention physical, occupational, and speech therapy services for preterm or low birth weight infants in Wisconsin, United States (McManus et al). 2012;12:96-103

**Education**

Home visitation by pediatric residents – perspectives from two pediatric training programs (Tschudy et al). 2012;12:370-4

**Education, distance**

Learning from a distance: effectiveness of online spirometry training in improving asthma care (Stout et al). 2012;12:88-95

**Education, medical**

Towards meaningful outcomes assessment: collaborative efforts in pediatric medical education (Burke et al). 2012;12:79-80

**Education, medical, graduate**

The intersection of flexibility and outcomes in pediatric education (Rushton and Djuricich). 2012;12:17-9  
Residency training and use of strategies to promote community child health one year after graduation (Solomon et al). 2012;12:344-9

**Education, public health professional**

Global health training in pediatric residency: a qualitative analysis of faculty director insights (Eneriz-Wiemer et al). 2012;12:238-44  
And how are the children? (Etzel). 2012;12:161-2  
International electives at the university of Minnesota global pediatric residency program: opportunities for education in all Accreditation Council for Graduate Medical Education competencies (Gladding et al). 2012;12:245-50  
A proposed model curriculum in global child health for pediatric residents (Suchdev et al). 2012;12:229-37

**Educational measurement**

Validity of faculty and resident global assessment of medical students' clinical knowledge during their pediatrics clerkship (Dudas et al). 2012;12:138-41

**Electronic health records**

Accuracy of parental report and electronic health record documentation as measures of diet and physical activity counseling (Shaikh et al). 2012;12:81-7  
Hospital electronic medical record use and cost of inpatient pediatric care (Teufel II et al). 2012;12:429-35

**Emergencies**

Is nonperforated pediatric appendicitis still considered a surgical emergency? A survey of pediatric surgeons (Dunlop et al). 2012;12:567-71

**Emergency medicine**

Emergency physician perspectives on child passenger safety: a national survey of attitudes and practices (Macy et al). 2012;12:131-7

**Emergency service, hospital**

Assessment of parental report for 2009-2010 seasonal and monovalent H1N1 influenza vaccines among children in the emergency department or hospital (Poehling et al). 2012;12:36-42

Burden of unmet mental health needs in assault-injured youths presenting to the emergency department (Anixt et al). 2012;12:125-30

**Emigrants and immigrants**

Nutrition education via a touchscreen: a randomized controlled trial in Latino immigrant parents of infants and toddlers (Thompson et al). 2012;12:412-9

**Employment**

Employment, family leave, and parents of newborns or seriously ill children (Chung et al). 2012;12:181-8

**Ethics**

Ethics and academic pediatrics (Szilagyi et al). 2012;12:9-12

**Ethnic groups**

Dietary and physical activity behaviors of New York City children from different ethnic minority subgroups (Vangeepuram et al). 2012;12:481-8  
Racial/ethnic disparities in health-related quality of life and health in children are largely mediated by family contextual differences (Wallander et al). 2012;12:532-8

**Exercise**

Exercise intervention in childhood obesity: a randomized controlled trial comparing hospital-versus home-based groups (Lisón et al). 2012;12:319-25

**F****Faculty, medical**

Global health training in pediatric residency: a qualitative analysis of faculty director insights (Eneriz-Wiemer et al). 2012;12:238-44  
Validity of faculty and resident global assessment of medical students' clinical knowledge during their pediatrics clerkship (Dudas et al). 2012;12:138-41

**Family**

Attrition and family participation in obesity treatment programs: clinicians' perceptions (Skelton et al). 2012;12:420-8

**Family health**

Preconception women's health and pediatrics: an opportunity to address infant mortality and family health (Cheng et al). 2012;12:357-9

**Family leave**

Employment, family leave, and parents of newborns or seriously ill children (Chung et al). 2012;12:181-8

**Family relations**

The medical home: relationships with family functioning for children with and without special health care needs (Arauz Boudreau et al). 2012;12:391-8

**Fathers**

Coparenting in teen mothers and their children's fathers: evidence from the early childhood longitudinal study–birth cohort (Lewin et al). 2012;12:539-45

**Feasibility studies**

Feasibility of initiating and sustaining registry-based immunization recall in private practices (Dombkowski et al). 2012;12:104-9

**Food**

Obese and hungry in the suburbs: the hidden faces of food insecurity (O'Malley et al). 2012;12:163-5

**Food services**

Assessment of food offerings and marketing strategies in the food-service venues at California Children's Hospitals (Lesser et al). 2012;12:62-7

**Fundoplication**

Fundoplication and the pediatric surgeon: implications for shared decision-making and the medical home (Fox et al). 2012;12:558-66

**G**

Gay; *see* Homosexuality, male

**H****Health care costs**

Pediatrics and the dollar sign: charges, costs, and striving towards value (Fieldston). 2012;12:365-6

**Health knowledge, attitudes, practice**

Emergency physician perspectives on child passenger safety: a national survey of attitudes and practices (Macy et al). 2012;12:131-7

**Health literacy**

Assessment of health literacy and numeracy among Spanish-Speaking parents of young children: validation of the Spanish Parental Health Literacy Activities Test (PHLAT Spanish) (Yin et al). 2012;12:68-74

Health literacy and health policy (Shone). 2012;12:253-4

Health literacy assessment of labeling of pediatric nonprescription medications: examination of characteristics that may impair parent understanding (Yin et al). 2012;12:288-96

Perceived barriers to care and attitudes towards shared decision-making among low socioeconomic status parents: role of health literacy (Yin et al). 2012;12:117-24

**Health personnel**

Well-child care practice redesign for low-income children: the perspectives of health plans, medical groups, and state agencies (Coker et al). 2012;12:43-52

**Health policy**

Health literacy and health policy (Shone). 2012;12:253-4

The patient protection and affordable care act and the future of child health policy (Rosenbaum). 2012;12:363-4

**Health services accessibility**

Perceived barriers to care and attitudes towards shared decision-making among low socioeconomic status parents: role of health literacy (Yin et al). 2012;12:117-24

**Health services needs and demand**

Employment, family leave, and parents of newborns or seriously ill children (Chung et al). 2012;12:181-8

**Health services research**

Application of classic utilities to published pediatric cost-utility studies (Finnell et al). 2012;12:219-28

**Health transition**

Delayed transition of care: a national study of visits to pediatricians by young adults (Fortuna et al). 2012;12:405-11

**Healthcare disparities**

Racial/ethnic disparities in health-related quality of life and health in children are largely mediated by family contextual differences (Wallander et al). 2012;12:532-8

**Hearing loss**

Making informed policy decisions about newborn hearing screening (Kemper and Downs). 2012;12:157-8

**Hearing loss, bilateral**

The cost-effectiveness of universal newborn screening for bilateral permanent congenital hearing impairment: systematic review (Colgan et al). 2012;12:171-80

**Hearing tests**

The cost-effectiveness of universal newborn screening for bilateral permanent congenital hearing impairment: systematic review (Colgan et al). 2012;12:171-80

**Hispanic Americans**

Assessment of health literacy and numeracy among Spanish-Speaking parents of young children: validation of the Spanish Parental Health Literacy Activities Test (PHLAT Spanish) (Yin et al). 2012;12:68-74

Nutrition education via a touchscreen: a randomized controlled trial in Latino immigrant parents of infants and toddlers (Thompson et al). 2012;12:412-9

**Home care services, hospital-based**

Exercise intervention in childhood obesity: a randomized controlled trial comparing hospital-versus home-based groups (Lisón et al). 2012;12:319-25

The frequency of outdoor play for preschool age children cared for at home-based child care settings (Tandon et al). 2012;12:475-80

**Home visits;** *see* House calls

**Homosexuality, male**

On being gay in medicine (Schuster). 2012;12:75-8

**Hospital charges**

Hospital charges of potentially preventable pediatric hospitalizations (Lu and Kuo). 2012;12:436-44

**Hospital costs**

Hospital electronic medical record use and cost of inpatient pediatric care (Teufel II et al). 2012;12:429-35

**Hospitalization**

Hospital charges of potentially preventable pediatric hospitalizations (Lu and Kuo). 2012;12:436-44

**Hospitals**

Autism and hospitals: a difficult match (Megargel and Broder-Fingert). 2012;12:469-70

**Hospitals, pediatric**

Assessment of food offerings and marketing strategies in the food-service venues at California Children's Hospitals (Lesser et al). 2012;12:62-7

**House calls**

Home visitation by pediatric residents – perspectives from two pediatric training programs (Tschudy et al). 2012;12:370-4

**Humanism**

Humanism through the lens of the Academic Pediatric Association (Serwint). 2012;12:1-8

**Hunger**

Obese and hungry in the suburbs: the hidden faces of food insecurity (O'Malley et al). 2012;12:163-5

**I****Immunization**

Feasibility of initiating and sustaining registry-based immunization recall in private practices (Dombkowski et al). 2012;12:104-9

**Income**

Potential savings from redetermining disability among children receiving supplemental security income benefits (Pulcini et al). 2012;12:489-94

**Infant**

Increasing adult Tdap vaccination rates by vaccinating infant caregivers in the pediatric office (Camenga et al). 2012;12:20-5

Nutrition education via a touchscreen: a randomized controlled trial in Latino immigrant parents of infants and toddlers (Thompson et al). 2012;12:412-9

**Infant, low birth weight**

Effectiveness of part C early intervention physical, occupational, and speech therapy services for preterm or low birth weight infants in Wisconsin, United States (McManus et al). 2012;12:96-103

**Infant, newborn**

Employment, family leave, and parents of newborns or seriously ill children (Chung et al). 2012;12:181-8

Making informed policy decisions about newborn hearing screening (Kemper and Downs). 2012;12:157-8

Neonatal cholestasis: opportunities to increase early detection (Palermo et al). 2012;12:283-7

**Infant, premature**

Effectiveness of part C early intervention physical, occupational, and speech therapy services for preterm or low birth weight infants in Wisconsin, United States (McManus et al). 2012;12:96-103

**Infant mortality**

Preconception women's health and pediatrics: an opportunity to address infant mortality and family health (Cheng et al). 2012;12:357-9

**Influenza A virus, H1N1 subtype**

Assessment of parental report for 2009-2010 seasonal and monovalent H1N1 influenza vaccines among children in the emergency department or hospital (Poehling et al). 2012;12:36-42

**Influenza vaccines**

Assessment of parental report for 2009-2010 seasonal and monovalent H1N1 influenza vaccines among children in the emergency department or hospital (Poehling et al). 2012;12:36-42

Pediatricians' attitudes about collaborations with other community vaccinators in the delivery of seasonal influenza vaccine (Kempe et al). 2012;12:26-35

A shot in the arm: not as simple as it would seem (Rand and Humiston). 2012;12:13-4

**Injury;** *see* Wounds and injuries

**Inpatients**

Hospital electronic medical record use and cost of inpatient pediatric care (Teufel II et al). 2012;12:429-35

**Intellectual disability**

Work experience and style explain variation among pediatricians in the detection of children with psychosocial problems (Theunissen et al). 2012;12:495-501

**Internship and residency**

Better rested, but more stressed? evidence of the effects of resident work hour restrictions (Auger et al). 2012;12:335-43

Global health training in pediatric residency: a qualitative analysis of faculty director insights (Eneriz-Wiemer et al). 2012;12:238-44

Home visitation by pediatric residents – perspectives from two pediatric training programs (Tschudy et al). 2012;12:370-4

International electives at the university of Minnesota global pediatric residency program: opportunities for education in all Accreditation Council for Graduate Medical Education competencies (Gladding et al). 2012;12:245-50

The intersection of flexibility and outcomes in pediatric education (Rushton and Djuricich). 2012;12:17-9

Pediatric residents' knowledge of the community (Northrip et al). 2012;12:350-6

A proposed model curriculum in global child health for pediatric residents (Suchdev et al). 2012;12:229-37

Residency training and use of strategies to promote community child health one year after graduation (Solomon et al). 2012;12:344-9

Validity of faculty and resident global assessment of medical students' clinical knowledge during their pediatrics clerkship (Dudas et al). 2012;12:138-41

**Interpersonal relations**

Pediatric clerkship directors' social networking use and perceptions of online professionalism (Kind et al). 2012;12:142-8

**Interprofessional relations**

Inter-agency collaboration in the care of children with complex chronic conditions (Nageswaran et al). 2012;12:189-97

**L**

**Latino;** *see* Hispanic Americans

**M****Marketing**

Assessment of food offerings and marketing strategies in the food-service venues at California Children's Hospitals (Lesser et al). 2012;12:62-7

**Mass screening**

Interventions to improve screening and follow-up in primary care: a systematic review of the evidence (Van Cleave et al). 2012;12:269-82

**Medicaid**

Reading level of medicaid renewal applications (Pati et al). 2012;12:297-301

**Medical homes;** *see* Patient-Centered Care; Patient-centered care

**Medication adherence**

Does the persistence of development delay predict receipt of early intervention services? (McManus and Rosenberg). 2012;12:546-50

Improving parental adherence with asthma treatment guidelines: a randomized controlled trial of an interactive website (Christakis et al). 2012;12:302-11

In their own words: adolescent views on ADHD and their evolving role managing medication (Brinkman et al). 2012;12:53-61

**Medicine**

On being gay in medicine (Schuster). 2012;12:75-8

**Mental health**

Burden of unmet mental health needs in assault-injured youths presenting to the emergency department (Anixt et al). 2012;12:125-30

The relationship of reported neighborhood conditions with child mental health (Butler et al). 2012;12:523-31

**Minnesota**

International electives at the university of Minnesota global pediatric residency program: opportunities for education in all Accreditation Council for Graduate Medical Education competencies (Gladding et al). 2012;12:245-50

**Minority groups**

Dietary and physical activity behaviors of New York City children from different ethnic minority subgroups (Vangeepuram et al). 2012;12:481-8

**Mothers**

Coparenting in teen mothers and their children's fathers: evidence from the early childhood longitudinal study–birth cohort (Lewin et al). 2012;12:539-45

**Motor activity**

Accuracy of parental report and electronic health record documentation as measures of diet and physical activity counseling (Shaikh et al). 2012;12:81-7

Dietary and physical activity behaviors of New York City children from different ethnic minority subgroups (Vangeepuram et al). 2012;12:481-8

**N****Needs assessment**

The medical home: relationships with family functioning for children with and without special health care needs (Arauz Boudreau et al). 2012;12:391-8

Participation of children with special health care needs in school and the community (Houtrow et al). 2012;12:326-34

**Neonatal screening**

The cost-effectiveness of universal newborn screening for bilateral permanent congenital hearing impairment: systematic review (Colgan et al). 2012;12:171-80

Making informed policy decisions about newborn hearing screening (Kemper and Downs). 2012;12:157-8

**New York City**

Dietary and physical activity behaviors of New York City children from different ethnic minority subgroups (Vangeepuram et al). 2012;12:481-8

**Nonprescription drugs**

Health literacy assessment of labeling of pediatric nonprescription medications: examination of characteristics that may impair parent understanding (Yin et al). 2012;12:288-96

**Nurse clinicians**

Improving clinician self-efficacy does not increase asthma guideline use by primary care clinicians (Cloutier et al). 2012;12:312-8

**O****Obesity**

Attrition and family participation in obesity treatment programs: clinicians' perceptions (Skelton et al). 2012;12:420-8

Exercise intervention in childhood obesity: a randomized controlled trial comparing hospital-versus home-based groups (Lisón et al). 2012;12:319-25

Obese and hungry in the suburbs: the hidden faces of food insecurity (O'Malley et al). 2012;12:163-5

**Occupational therapy**

Effectiveness of part C early intervention physical, occupational, and speech therapy services for preterm or low birth weight infants in Wisconsin, United States (McManus et al). 2012;12:96-103

**Organizational innovation**

Well-child care practice redesign for low-income children: the perspectives of health plans, medical groups, and state agencies (Coker et al). 2012;12:43-52

**Otitis media**

Development of an algorithm for the diagnosis of otitis media (McConnochie). 2012;12:159-60; Shaikh et al). 2012;12:214-8

**Outcome assessment (health care)**

Towards meaningful outcomes assessment: collaborative efforts in pediatric medical education (Burke et al). 2012;12:79-80

**P****Parenting**

Coparenting in teen mothers and their children's fathers: evidence from the early childhood longitudinal study—birth cohort (Lewin et al). 2012;12:539-45

**Parents**

- Accuracy of parental report and electronic health record documentation as measures of diet and physical activity counseling (Shaikh et al). 2012;12:81-7
- African-American parents' trust in their child's primary care provider (Horn et al). 2012;12:399-404
- Assessment of health literacy and numeracy among Spanish-Speaking parents of young children: validation of the Spanish Parental Health Literacy Activities Test (PHLAT Spanish) (Yin et al). 2012;12:68-74
- Barriers to evaluation for early intervention services: parent and early intervention employee perspectives (Jimenez et al). 2012;12:551-7
- Development of an instrument to measure parents' preferences and goals for the treatment of attention deficit-hyperactivity disorder (Fiks et al). 2012;12:445-55
- Employment, family leave, and parents of newborns or seriously ill children (Chung et al). 2012;12:181-8
- Health literacy assessment of labeling of pediatric nonprescription medications: examination of characteristics that may impair parent understanding (Yin et al). 2012;12:288-96
- Improving parental adherence with asthma treatment guidelines: a randomized controlled trial of an interactive website (Christakis et al). 2012;12:302-11
- Nutrition education via a touchscreen: a randomized controlled trial in Latino immigrant parents of infants and toddlers (Thompson et al). 2012;12:412-9
- Parent-reported quality of preventive care for children at-risk for developmental delay (Coker et al). 2012;12:384-90
- Parental strain, parental health, and community characteristics among children with attention deficit-hyperactivity disorder (Hinojosa et al). 2012;12:502-8
- Perceived barriers to care and attitudes towards shared decision-making among low socioeconomic status parents: role of health literacy (Yin et al). 2012;12:117-24
- Predictors of parental posttraumatic stress disorder symptoms in the year after adolescent traumatic injury (Martin-Herz et al). 2012;12:198-204

**Patient-centered care**

- Child maltreatment prevention and the medical home: a promising approach to an age old pediatric problem (Scribano and Zolotor). 2012;12:251-2
- Fundoplication and the pediatric surgeon: implications for shared decision-making and the medical home (Fox et al). 2012;12:558-66
- The medical home: relationships with family functioning for children with and without special health care needs (Arauz Boudreau et al). 2012;12:391-8

**Patient compliance**

Improving parental adherence with asthma treatment guidelines: a randomized controlled trial of an interactive website (Christakis et al). 2012;12:302-11

**Patient protection and affordable care act**

The patient protection and affordable care act and the future of child health policy (Rosenbaum). 2012;12:363-4

**Pediatrics**

- Application of classic utilities to published pediatric cost-utility studies (Finnell et al). 2012;12:219-28
- The association of pediatric program directors: the first 25 years (Roberts et al). 2012;12:166-70
- Child maltreatment prevention and the medical home: a promising approach to an age old pediatric problem (Scribano and Zolotor). 2012;12:251-2
- Delayed transition of care: a national study of visits to pediatricians by young adults (Fortuna et al). 2012;12:405-11
- Ethics and academic pediatrics (Szilagyi et al). 2012;12:9-12
- Fundoplication and the pediatric surgeon: implications for shared decision-making and the medical home (Fox et al). 2012;12:558-66
- Global health training in pediatric residency: a qualitative analysis of faculty director insights (Eneriz-Wiemer et al). 2012;12:238-44
- Health literacy assessment of labeling of pediatric nonprescription medications: examination of characteristics that may impair parent understanding (Yin et al). 2012;12:288-96
- Home visitation by pediatric residents – perspectives from two pediatric training programs (Tschudy et al). 2012;12:370-4
- Hospital charges of potentially preventable pediatric hospitalizations (Lu and Kuo). 2012;12:436-44
- Hospital electronic medical record use and cost of inpatient pediatric care (Teufel II et al). 2012;12:429-35
- And how are the children? (Etzel). 2012;12:161-2
- Humanism through the lens of the Academic Pediatric Association (Serwint). 2012;12:1-8
- Improving pediatric asthma care: a familiar question and the search for new answers (Yee and Halterman). 2012;12:255-6
- International electives at the university of Minnesota global pediatric residency program: opportunities for education in all Accreditation Council for Graduate Medical Education competencies (Gladding et al). 2012;12:245-50
- The intersection of flexibility and outcomes in pediatric education (Rushton and Djuricich). 2012;12:17-9
- Interventions to improve screening and follow-up in primary care: a systematic review of the evidence (Van Cleave et al). 2012;12:269-82
- Is nonperforated pediatric appendicitis still considered a surgical emergency? A survey of pediatric surgeons (Dunlop et al). 2012;12:567-71
- Pediatric clerkship directors' social networking use and perceptions of online professionalism (Kind et al). 2012;12:142-8
- Pediatric residents' knowledge of the community (Northrip et al). 2012;12:350-6
- Pediatricians' attitudes about collaborations with other community vaccinators in the delivery of seasonal influenza vaccine (Kempe et al). 2012;12:26-35
- Pediatrics and the dollar sign: charges, costs, and striving towards value (Fieldston). 2012;12:365-6
- The pediatrics milestones: a continuous quality improvement project is launched—now the hard work begins! (Englander et al). 2012;12:471-4
- Preconception women's health and pediatrics: an opportunity to address infant mortality and family health (Cheng et al). 2012;12:357-9
- The Preschool Pediatric Symptom Checklist (PPSC): development and initial validation of a new social/emotional screening instrument (Sheldrick et al). 2012;12:456-67
- A proposed model curriculum in global child health for pediatric residents (Suchdev et al). 2012;12:229-37

- The SEEK model of pediatric primary care: can child maltreatment be prevented in a low-risk population? (Dubowitz et al). 2012;12:259-68
- A shot in the arm: not as simple as it would seem (Rand and Humiston). 2012;12:13-4
- Towards meaningful outcomes assessment: collaborative efforts in pediatric medical education (Burke et al). 2012;12:79-80
- Validity of faculty and resident global assessment of medical students' clinical knowledge during their pediatrics clerkship (Dudas et al). 2012;12:138-41
- Work experience and style explain variation among pediatricians in the detection of children with psychosocial problems (Theunissen et al). 2012;12:495-501

**Perception**

- Attrition and family participation in obesity treatment programs: clinicians' perceptions (Skelton et al). 2012;12:420-8

**Personnel staffing and scheduling**

- Better rested, but more stressed? Evidence of the effects of resident work hour restrictions (Auger et al). 2012;12:335-43

**Physical activity; see Motor activity****Physical therapy modalities**

- Effectiveness of part C early intervention physical, occupational, and speech therapy services for preterm or low birth weight infants in Wisconsin, United States (McManus et al). 2012;12:96-103

**Physicians**

- Dr and Mrs (Leimena). 2012;12:15-6

**Physician's practice patterns**

- Trends in attention deficit hyperactivity disorder ambulatory diagnosis and medical treatment in the United States, 2000-2010 (Garfield et al). 2012;12:110-6

**Physician's role**

- Emergency physician perspectives on child passenger safety: a national survey of attitudes and practices (Macy et al). 2012;12:131-7

**Policy making**

- Making informed policy decisions about newborn hearing screening (Kemper and Downs). 2012;12:157-8

**Population characteristics**

- The SEEK model of pediatric primary care: can child maltreatment be prevented in a low-risk population? (Dubowitz et al). 2012;12:259-68

**Poverty**

- Well-child care practice redesign for low-income children: the perspectives of health plans, medical groups, and state agencies (Coker et al). 2012;12:43-52

**Preconception care**

- Preconception women's health and pediatrics: an opportunity to address infant mortality and family health (Cheng et al). 2012;12:357-9

**Prejudice**

- On being gay in medicine (Schuster). 2012;12:75-8

**Preventive health services**

- Child maltreatment prevention and the medical home: a promising approach to an age old pediatric problem (Scribano and Zolotor). 2012;12:251-2
- Interventions to improve screening and follow-up in primary care: a systematic review of the evidence (Van Cleave et al). 2012;12:269-82

**Primary health care**

- African-American parents' trust in their child's primary care provider (Horn et al). 2012;12:399-404
- Improving clinician self-efficacy does not increase asthma guideline use by primary care clinicians (Cloutier et al). 2012;12:312-8
- Improving pediatric asthma care: a familiar question and the search for new answers (Yee and Halterman). 2012;12:255-6
- Interventions to improve screening and follow-up in primary care: a systematic review of the evidence (Van Cleave et al). 2012;12:269-82

- The SEEK model of pediatric primary care: can child maltreatment be prevented in a low-risk population? (Dubowitz et al). 2012;12:259-68

**Primary prevention**

- Parent-reported quality of preventive care for children at-risk for developmental delay (Coker et al). 2012;12:384-90

**Private practice**

- Feasibility of initiating and sustaining registry-based immunization recall in private practices (Dombkowski et al). 2012;12:104-9

**Psychometrics**

- Assessment of health literacy and numeracy among Spanish-Speaking parents of young children: validation of the Spanish Parental Health Literacy Activities Test (PHLAT Spanish) (Yin et al). 2012;12:68-74

**Q****Quality improvement**

- The pediatrics milestones: a continuous quality improvement project is launched—now the hard work begins! (Englander et al). 2012;12:471-4

**Quality of health care**

- Parent-reported quality of preventive care for children at-risk for developmental delay (Coker et al). 2012;12:384-90

**Quality of life**

- Racial/ethnic disparities in health-related quality of life and health in children are largely mediated by family contextual differences (Wallander et al). 2012;12:532-8

**R****Registries**

- Feasibility of initiating and sustaining registry-based immunization recall in private practices (Dombkowski et al). 2012;12:104-9

**Reminder systems**

- Feasibility of initiating and sustaining registry-based immunization recall in private practices (Dombkowski et al). 2012;12:104-9

**Research personnel**

- Notes to a young investigator on how we might change the world (Flores). 2012;12:367-9

**Residence characteristics**

- Parental strain, parental health, and community characteristics among children with attention deficit-hyperactivity disorder (Hinojosa et al). 2012;12:502-8
- Participation of children with special health care needs in school and the community (Houtrow et al). 2012;12:326-34
- Pediatric residents' knowledge of the community (Northrip et al). 2012;12:350-6
- The relationship of reported neighborhood conditions with child mental health (Butler et al). 2012;12:523-31
- Residency training and use of strategies to promote community child health one year after graduation (Solomon et al). 2012;12:344-9

**Risk factors**

- Identifying children at risk for being bullies in the United States (Shetgiri et al). 2012;12:509-22

**S****Safety**

- Emergency physician perspectives on child passenger safety: a national survey of attitudes and practices (Macy et al). 2012;12:131-7

**Schools**

- Participation of children with special health care needs in school and the community (Houtrow et al). 2012;12:326-34

**Self efficacy**

- Improving clinician self-efficacy does not increase asthma guideline use by primary care clinicians (Cloutier et al). 2012;12:312-8

**Self-injurious behavior**

Factors distinguishing youth who report self-injurious behavior: a population-based sample (Taliaferro et al). 2012;12:205-13

**Social class**

Perceived barriers to care and attitudes towards shared decision-making among low socioeconomic status parents: role of health literacy (Yin et al). 2012;12:117-24

**Social environment**

The SEEK model of pediatric primary care: can child maltreatment be prevented in a low-risk population? (Dubowitz et al). 2012;12:259-68

**Social networking**

Pediatric clerkship directors' social networking use and perceptions of online professionalism (Kind et al). 2012;12:142-8

**Societies, medical**

The association of pediatric program directors: the first 25 years (Roberts et al). 2012;12:166-70

**Speech therapy**

Effectiveness of part C early intervention physical, occupational, and speech therapy services for preterm or low birth weight infants in Wisconsin, United States (McManus et al). 2012;12:96-103

**Spirometry**

Learning from a distance: effectiveness of online spirometry training in improving asthma care (Stout et al). 2012;12:88-95

**State health plans**

Well-child care practice redesign for low-income children: the perspectives of health plans, medical groups, and state agencies (Coker et al). 2012;12:43-52

**Stress disorders, post-traumatic**

Predictors of parental posttraumatic stress disorder symptoms in the year after adolescent traumatic injury (Martin-Herz et al). 2012;12:198-204
