

ACADEMIC PEDIATRICS

Subject Index to Volume 14

A

Academic medical centers

A comprehensive model to build improvement capability in a pediatric academic medical center (Kaminski et al). 2014;14:29-39

Admitting department, hospital

Effect of using pediatric emergency department virtual observation on inpatient admissions and lengths of stay (Cator et al). 2014;14:510-6

Adolescent

Child and adolescent health care quality and disparities: are we making progress? (Dougherty et al). 2014;14:137-48

Depression screening in adolescents in the United States: a national study of ambulatory office-based practice (Zenlea et al). 2014;14:186-91

Facebook as a recruitment tool for adolescent health research: a systematic review (Amon et al). 2014;14:439-47, 439.e1-e4

Mental health beliefs and barriers to accessing mental health services in youth aging out of foster care (Sakai et al). 2014;14:565-73

Quality concerns in antipsychotic prescribing for youth: a review of treatment guidelines (Kealey et al). 2014;14:S68-75

Risk score for predicting adolescent mental health problems among children using parental report only: the TRAILS study (Burger et al). 2014;14:589-96

Sex differences in adult outcomes by changes in weight status from adolescence to adulthood: results from add health (Chung et al). 2014;14:448-55

Uptake of human papillomavirus vaccine among adolescent males and females: immunization information system sentinel sites, 2009–2012 (Cullen et al). 2014;14:497-504

Adult

Sex differences in adult outcomes by changes in weight status from adolescence to adulthood: results from add health (Chung et al). 2014;14:448-55

African Americans

Which African American mothers disclose psychosocial issues to their pediatric providers? (Godoy et al). 2014;14:382-9

Aging

Mental health beliefs and barriers to accessing mental health services in youth aging out of foster care (Sakai et al). 2014;14:565-73

Alternative medicine; *see* Complementary therapies

Ambulatory care

Challenges and potential solutions to educating learners about pediatric complex care (Bogetz et al). 2014;14:603-9

Depression screening in adolescents in the United States: a national study of ambulatory office-based practice (Zenlea et al). 2014;14:186-91

Anemia, sickle cell

Identifying sickle cell disease cases using administrative claims (Reeves et al). 2014;14:S61-7

Antipsychotic agents

Quality concerns in antipsychotic prescribing for youth: a review of treatment guidelines (Kealey et al). 2014;14:S68-75

Asthma

Asthma treatment decisions by pediatric residents do not consistently conform to guidelines or improve with level of training (Okelo et al). 2014;14:287-93

Complementary and alternative medicine use and adherence to asthma medications among Latino and non-Latino white families (McQuaid et al). 2014;14:192-9

Attention deficit disorder with hyperactivity

Considerations and evidence for an ADHD outcome measure (Woods et al). 2014;14:S54-60

Autism; *see* Autistic disorder

Autism spectrum disorders; *see* Child development disorders, pervasive

Autistic disorder

Latino parents' perspectives on barriers to autism diagnosis (Zuckerman et al). 2014;14:301-8

Prevalence of overweight and obesity in a large clinical sample of children with autism (Broder-Fingert et al). 2014;14:408-14

Automobile driving

Potential distractions and unsafe driving behaviors among drivers of 1- to 12-year-old children (Macy et al). 2014;14:279-86

B

Behavior

Potential distractions and unsafe driving behaviors among drivers of 1- to 12-year-old children (Macy et al). 2014;14:279-86

Birth weight

Cumulative social risk exposure, infant birth weight, and cognitive delay in infancy (Cheng et al). 2014;14:581-8

Body mass index

Interaction between maternal prepregnancy body mass index and gestational weight gain shapes infant growth (Heerman et al). 2014;14:463-70

Population-level obesity surveillance: monitoring childhood body mass index z-score in a safety-net system (Davidson et al). 2014;14:633-9

Sleep timing moderates the concurrent sleep duration–body mass index association in low-income preschool-age children (Miller et al). 2014;14:207-13

What can providers learn from childhood body mass index trajectories: a study of a large, safety-net clinical population (McCormick et al). 2014;14:640-6

Body weight changes

Sex differences in adult outcomes by changes in weight status from adolescence to adulthood: results from add health (Chung et al). 2014;14:448-55

C

Career choice

Do mentors matter in graduating pediatrics residents' career choices? (Umoren and Frintner). 2014;14:348-52

Caregivers

Caregiver low health literacy and nonurgent use of the pediatric emergency department for febrile illness (Morrison et al). 2014;14:505-9

Low caregiver health literacy is associated with higher pediatric emergency department use and nonurgent visits (Morrison et al). 2014;14:309-14

Certification

Maintenance of certification and pediatrics milestones–based assessment: an opportunity for quality improvement through lifelong assessment (Moyer). 2014;14:S6-7

Child

- Advancing children's health care and outcomes through the pediatric quality measures program (Mistry et al). 2014;14:S19-26
- Baby gate-related injuries among children in the United States, 1990–2010 (Cheng et al). 2014;14:256-61
- Child and adolescent health care quality and disparities: are we making progress? (Dougherty et al). 2014;14:137-48
- Children and the patient protection and affordable care act opportunities and challenges in an evolving system (Keller and Chamberlain). 2014;14:225-33
- A CHIPRA quality demonstration grantee's perspective on the child core measure set and quality measurement (Doetsch and Smith). 2014;14:S4-5
- A CHIPRA quality demonstration grantee's perspective on the CHIPRA core measures set: uses, challenges, and the future (Bannister et al). 2014;14:S6-7
- Developing measures for pediatric quality: methods and experiences of the CHIPRA pediatric quality measures program grantees (Byron et al). 2014;14:S27-32
- Differing perceptions regarding quality of life and inpatient treatment goals for children with severe disabilities (Nolan et al). 2014;14:574-80
- The double disability of refugee children (Minhas). 2014;14:8-9
- Exploring innovative approaches and patient-centered outcomes from positive outliers in childhood obesity (Sharifi et al). 2014;14:647-56
- Family impacts among children with autism spectrum disorder: the role of health care quality (Zuckerman et al). 2014;14:398-407
- Family out-of-pocket health care burden and children's unmet needs or delayed health care (Karaca-Mandic et al). 2014;14:101-8
- Financial and nonfinancial burden among families of CSHCN: changes between 2001 and 2009–2010 (Ghandour et al). 2014;14:92-100
- Growing up poor: a pediatric response (Zuckerman). 2014;14:431-5
- The importance of the family voice in quality measure development for children's health care (Allshouse). 2014;14:S8-9
- The importance of the pediatric quality measurement program in advancing children's health care: a view from children's hospitals (Miller et al). 2014;14:S12-14
- Injuries among children with autism spectrum disorder (Jain et al). 2014;14:390-7
- Keeping children safe and well: an APA symphony in four movements (Jaffe). 2014;14:109-14
- Liquid medication dosing errors in children: role of provider counseling strategies (Yin et al). 2014;14:262-70
- The National Children's Study 2014: commentary on a recent national research council/institute of medicine report (McCormick et al). 2014;14:545-6
- Parental limited English proficiency and health outcomes for children with special health care needs: a systematic review (Eneriz-Wierner). 2014;14:128-36
- Parental psychological distress and children's mental health: results of a national survey (Amrock and Weitzman). 2014;14:375-81
- Parents' obesity-related behavior and confidence to support behavioral change in their obese child: data from the STAR study (Arsenault et al). 2014;14:456-62
- Policy, politics, and procedure: our role in building systems that improve the health of children (Keller). 2014;14:425-9
- Population-level obesity surveillance: monitoring childhood body mass index z-score in a safety-net system (Davidson et al). 2014;14:633-9
- Potential distractions and unsafe driving behaviors among drivers of 1- to 12-year-old children (Macy et al). 2014;14:279-86
- Predictors of unmet dental need in children with autism spectrum disorder: results from a national sample (McKinney et al). 2014;14:625-32
- Prevalence of overweight and obesity in a large clinical sample of children with autism (Broder-Fingert et al). 2014;14:408-14
- The relative roles of types of extracurricular activity on smoking and drinking initiation among tweens (Adachi-Mejia et al). 2014;14:271-8
- Risk score for predicting adolescent mental health problems among children using parental report only: the TRAILS study (Burger et al). 2014;14:589-96
- Systematic evidence-based quality measurement life-cycle approach to measure retirement in CHIPRA (Dougherty et al). 2014;14:S97-103
- Using Medicaid and CHIP claims data to support pediatric quality measurement: lessons from 3 centers of excellence in measure development (Gidengil et al). 2014;14:S76-81
- What can providers learn from childhood body mass index trajectories: a study of a large, safety-net clinical population (McCormick et al). 2014;14:640-6
- Child, preschool**
- Sleep timing moderates the concurrent sleep duration–body mass index association in low-income preschool-age children (Miller et al). 2014;14:207-13
- Child development disorders, pervasive**
- Family impacts among children with autism spectrum disorder: the role of health care quality (Zuckerman et al). 2014;14:398-407
- Injuries among children with autism spectrum disorder (Jain et al). 2014;14:390-7
- Predictors of unmet dental need in children with autism spectrum disorder: results from a national sample (McKinney et al). 2014;14:625-32
- Child welfare**
- Health status and type of out-of-home placement: informal kinship care in an investigated sample (Stein et al). 2014;14:559-64
- Children; see Child**
- Clinical clerkship**
- Changes to pediatric clerkships' nighttime structure after introduction of the 2011 ACGME resident duty hour standards (Smith and Stevenson). 2014;14:155-8
- Setting standards to determine core clerkship grades in pediatrics (Dudas and Barone). 2014;14:294-300
- Use of simulation-based education: a national survey of pediatric clerkship directors (Vukin et al). 2014;14:369-74
- Clinical trials data monitoring committees**
- Optimizing clinical competency committee work through taking advantage of overlap across milestones (Schumacher et al). 2014;14:436-8
- Population-level obesity surveillance: monitoring childhood body mass index z-score in a safety-net system (Davidson et al). 2014;14:633-9
- Cognition**
- Cumulative social risk exposure, infant birth weight, and cognitive delay in infancy (Cheng et al). 2014;14:581-8
- Communication**
- Domain of competence: interpersonal and communication skills (Benson). 2014;14:S55-65
- Community health services**
- Residency exposures and anticipated future involvement in community settings (Goldshore et al). 2014;14:341-7
- Competency-based education**
- Domain of competence: medical knowledge (Englander and Carraccio). 2014;14:S36-7
- Domain of competence: systems-based practice (Guralnick). 2014;14:S70-9
- Complementary therapies**
- Complementary and alternative medicine use and adherence to asthma medications among Latino and non-Latino white families (McQuaid et al). 2014;14:192-9
- Correlates of complementary and alternative medicine use in a pediatric tertiary pain center (Vinson et al). 2014;14:491-6
- Concept formation**
- Concept and measurement of pediatric value (Forrest and Silber). 2014;14:S33-8

Counseling

- Enhancing the electronic health record to increase counseling and quit-line referral for parents who smoke (Sharifi et al). 2014;14:478-84
- Liquid medication dosing errors in children: role of provider counseling strategies (Yin et al). 2014;14:262-70

Curriculum

- Can a video curriculum on the social determinants of health affect residents' practice and families' perceptions of care? (Klein et al). 2014;14:159-66
- Developing a quality and safety curriculum for fellows lessons learned from a neonatology fellowship program (Gupta et al). 2014;14:47-53

D**Data collection**

- Parental psychological distress and children's mental health: results of a national survey (Amrock and Weitzman). 2014;14:375-81
- Pediatric resident education in quality improvement (QI): a national survey (Craig et al). 2014;14:54-61
- Quality improvement educational practices in pediatric residency programs: survey of pediatric program directors (Mann et al). 2014;14:23-8
- Use of simulation-based education: a national survey of pediatric clerkship directors (Vukin et al). 2014;14:369-74

Delivery of health care

- Advancing children's health care and outcomes through the pediatric quality measures program (Mistry et al). 2014;14:S19-26
- Children and the patient protection and affordable care act opportunities and challenges in an evolving system (Keller and Chamberlain). 2014;14:225-33
- Domain of competence: systems-based practice (Guralnick). 2014;14:S70-9
- The importance of the family voice in quality measure development for children's health care (Allshouse). 2014;14:S8-9
- The importance of the pediatric quality measurement program in advancing children's health care: a view from children's hospitals (Miller et al). 2014;14:S12-14

Depression

- Depression screening in adolescents in the United States: a national study of ambulatory office-based practice (Zenlea et al). 2014;14:186-91

Disabled children

- Differing perceptions regarding quality of life and inpatient treatment goals for children with severe disabilities (Nolan et al). 2014;14:574-80

Drinking

- Middle school student attitudes about school drinking fountains and water intake (Patel et al). 2014;14:471-7
- The relative roles of types of extracurricular activity on smoking and drinking initiation among tweens (Adachi-Mejia et al). 2014;14:271-8

E**Early medical intervention**

- Factors associated with early intervention referral and evaluation: a mixed methods analysis (Jimenez et al). 2014;14:315-23

Education

- Education in quality improvement for pediatric practice: an online program to teach clinicians QI (Bundy et al). 2014;14:517-25
- Educational scholarship in *Academic Pediatrics*: reflecting on our past and looking forward to our future (Patrick and Gusic). 2014;14:547-8

Education, medical

- Domain of competence: medical knowledge (Englander and Carraccio). 2014;14:S36-7
- Educating for quality: quality improvement as an activity of daily learning to improve educational and patient outcomes (Co). 2014;14:1-3

Pediatric education across the continuum: what continuum? (Roberts). 2014;14:325-9

Pediatric residency program handover: before and after the ACGME requirement (Held et al). 2014;14:610-6

Pediatric resident education in quality improvement (QI): a national survey (Craig et al). 2014;14:54-61

Placing faculty development front and center in a multisite educational initiative: lessons from the I-PASS handoff study (O'Toole et al). 2014;14:221-4

Quality improvement educational practices in pediatric residency programs: survey of pediatric program directors (Mann et al). 2014;14:23-8

Training pediatric residents to provide parent education: a randomized controlled trial (McCormick et al). 2014;14:353-60

Transition care: future directions in education, health policy, and outcomes research (Sharma et al). 2014;14:120-7

Use of simulation-based education: a national survey of pediatric clerkship directors (Vukin et al). 2014;14:369-74

Electronic health records

- Addressing electronic clinical information in the construction of quality measures (Bailey et al). 2014;14:S82-9
- Enhancing the electronic health record to increase counseling and quit-line referral for parents who smoke (Sharifi et al). 2014;14:478-84

Emergencies

Yes, there are developmental emergencies (Shulman). 2014;14:554-5

Emergency department; see Emergency service, hospital**Emergency service, hospital**

- Caregiver low health literacy and nonurgent use of the pediatric emergency department for febrile illness (Morrison et al). 2014;14:505-9
- Effect of using pediatric emergency department virtual observation on inpatient admissions and lengths of stay (Cator et al). 2014;14:510-6
- The greater good: how supervising physicians make entrustment decisions in the pediatric emergency department (Tiyagura et al). 2014;14:597-602
- Impact of newborn follow-up visit timing on subsequent ED visits and hospital readmissions: an instrumental variable analysis (O'Donnell). 2014;14:84-91
- Low caregiver health literacy is associated with higher pediatric emergency department use and nonurgent visits (Morrison et al). 2014;14:309-14

F**Faculty**

Placing faculty development front and center in a multisite educational initiative: lessons from the I-PASS handoff study (O'Toole et al). 2014;14:221-4

Family

- Can a video curriculum on the social determinants of health affect residents' practice and families' perceptions of care? (Klein et al). 2014;14:159-66
- Complementary and alternative medicine use and adherence to asthma medications among Latino and non-Latino white families (McQuaid et al). 2014;14:192-9
- Family-centered rounds in theory and practice: an ethnographic case study (Subramony et al). 2014;14:200-6
- Family impacts among children with autism spectrum disorder: the role of health care quality (Zuckerman et al). 2014;14:398-407
- Family out-of-pocket health care burden and children's unmet needs or delayed health care (Karaca-Mandic et al). 2014;14:101-8
- Financial and nonfinancial burden among families of CSHCN: changes between 2001 and 2009-2010 (Ghandour et al). 2014;14:92-100
- The importance of the family voice in quality measure development for children's health care (Allshouse). 2014;14:S8-9

- Predictors of resident satisfaction in caring for limited English proficient families: a multisite study (Hernandez et al). 2014;14:173-80
- The research home: partnering with families (Hoberman). 2014;14:549-53

Febrile neutropenia

- Caregiver low health literacy and nonurgent use of the pediatric emergency department for febrile illness (Morrison et al). 2014;14:505-9

Fellowships and scholarships

- Educational scholarship in *Academic Pediatrics*: reflecting on our past and looking forward to our future (Patrick and Gusic). 2014;14:547-8

Financial burden

- Financial and nonfinancial burden among families of CSHCN: changes between 2001 and 2009–2010 (Ghandour et al). 2014;14:92-100

Foster home care

- Health status and type of out-of-home placement: informal kinship care in an investigated sample (Stein et al). 2014;14:559-64
- Kinship care (Szilagyi). 2014;14:543-4
- Mental health beliefs and barriers to accessing mental health services in youth aging out of foster care (Sakai et al). 2014;14:565-73

G**General practice, dental**

- Oral health opinions and practices of pediatricians: updated results from a national survey (Quinonez et al). 2014;14:617-24

Genomics

- Genomics, personalized medicine, and pediatrics (Feero and Guttmacher). 2014;14:14-22

Gestational age

- Interaction between maternal prepregnancy body mass index and gestational weight gain shapes infant growth (Heerman et al). 2014;14:463-70

H**Health care burden**

- Family out-of-pocket health care burden and children's unmet needs or delayed health care (Karaca-Mandic et al). 2014;14:101-8

Health care costs

- School-located influenza vaccination with third-party billing: outcomes, cost, and reimbursement (Kempe et al). 2014;14:234-40

Health educators

- Challenges and potential solutions to educating learners about pediatric complex care (Bogetz et al). 2014;14:603-9

Health literacy

- Caregiver low health literacy and nonurgent use of the pediatric emergency department for febrile illness (Morrison et al). 2014;14:505-9
- Low caregiver health literacy is associated with higher pediatric emergency department use and nonurgent visits (Morrison et al). 2014;14:309-14

Health policy

- Transition care: future directions in education, health policy, and outcomes research (Sharma et al). 2014;14:120-7

Health services accessibility

- Family out-of-pocket health care burden and children's unmet needs or delayed health care (Karaca-Mandic et al). 2014;14:101-8
- Financial and nonfinancial burden among families of CSHCN: changes between 2001 and 2009–2010 (Ghandour et al). 2014;14:92-100
- Parental limited English proficiency and health outcomes for children with special health care needs: a systematic review (Eneriz-Wiemer). 2014;14:128-36

Health services research

- An AHRQ and CMS perspective on the pediatric quality measures program (Dougherty et al). 2014;14:S17-8
- Facebook as a recruitment tool for adolescent health research: a systematic review (Amon et al). 2014;14:439-47, 439.e1-e4

Health status

- Health status and type of out-of-home placement: informal kinship care in an investigated sample (Stein et al). 2014;14:559-64

Healthcare disparities

- Child and adolescent health care quality and disparities: are we making progress? (Dougherty et al). 2014;14:137-48
- Reframing the disparities agenda: a time to rethink, a time to focus (Horn and Mendoza). 2014;14:115-6

Hispanic Americans

- Latino parents' perspectives on barriers to autism diagnosis (Zuckerman et al). 2014;14:301-8

Hospitalists

- Determinants of career satisfaction among pediatric hospitalists: a qualitative exploration (Leyenaar et al). 2014;14:361-8

Hospitals

- The importance of the pediatric quality measurement program in advancing children's health care: a view from children's hospitals (Miller et al). 2014;14:S12-14

I**Immunization**

- Evaluating Washington State's immunization information system as a research tool (Jackson et al). 2014;14:71-6
- Novel immunization reminder/recall approaches: rural and urban differences in parent perceptions (Saville et al). 2014;14:249-55
- Provider attitudes toward public-private collaboration to improve immunization reminder/recall: a mixed-methods study (Albright et al). 2014;14:62-70

In Memoriam

- Joel J. Alpert, MD (1930–2013) (Zuckerman). 2014;14:430

Income

- Sleep timing moderates the concurrent sleep duration–body mass index association in low-income preschool-age children (Miller et al). 2014;14:207-13

Individualized medicine

- Genomics, personalized medicine, and pediatrics (Feero and Guttmacher). 2014;14:14-22

Infant

- Cumulative social risk exposure, infant birth weight, and cognitive delay in infancy (Cheng et al). 2014;14:581-8
- Interaction between maternal prepregnancy body mass index and gestational weight gain shapes infant growth (Heerman et al). 2014;14:463-70

Infant, newborn

- Factors associated with timing of first outpatient visit after newborn hospital discharge (O'Donnell). 2014;14:77-83
- Impact of newborn follow-up visit timing on subsequent ED visits and hospital readmissions: an instrumental variable analysis (O'Donnell). 2014;14:84-91

Influenza, human

- School-located influenza vaccination: can collaborative efforts go the distance? (Humiston et al). 2014;14:219-20
- School-located influenza vaccination with third-party billing: outcomes, cost, and reimbursement (Kempe et al). 2014;14:234-40
- School-located influenza vaccination with third-party billing: what do parents think? (Kempe et al). 2014;14:241-8

Injury; see Wounds and injuries**Inpatients**

- Differing perceptions regarding quality of life and inpatient treatment goals for children with severe disabilities (Nolan et al). 2014;14:574-80
- Effect of using pediatric emergency department virtual observation on inpatient admissions and lengths of stay (Cator et al). 2014;14:510-6

Insurance, health

- A CHIPRA quality demonstration grantee's perspective on the child core measure set and quality measurement (Doetsch and Smith). 2014;14:S4-5
- A CHIPRA quality demonstration grantee's perspective on the CHIPRA core measures set: uses, challenges, and the future (Bannister et al). 2014;14:S6-7
- Developing measures for pediatric quality: methods and experiences of the CHIPRA pediatric quality measures program grantees (Byron et al). 2014;14:S27-32
- Systematic evidence-based quality measurement life-cycle approach to measure retirement in CHIPRA (Dougherty et al). 2014;14:S97-103
- Using Medicaid and CHIP claims data to support pediatric quality measurement: lessons from 3 centers of excellence in measure development (Gidengil et al). 2014;14:S76-81

Intensive care, neonatal

- Challenges to measuring variation in readmission rates of neonatal intensive care patients (Lorch et al). 2014;14:S47-53

Internship and residency

- The 2011 ACGME standards: impact reported by graduating residents on the working and learning environment (Schumacher et al). 2014;14:149-54
- Assessing and managing the social determinants of health: defining an entrustable professional activity to assess residents' ability to meet societal needs (Klein et al). 2014;14:10-3
- Asthma treatment decisions by pediatric residents do not consistently conform to guidelines or improve with level of training (Okelo et al). 2014;14:287-93
- Burnout in pediatric residents over a 2-year period: a longitudinal study (Pantaleoni et al). 2014;14:167-72
- Can a video curriculum on the social determinants of health affect residents' practice and families' perceptions of care? (Klein et al). 2014;14:159-66
- Changes to pediatric clerkships' nighttime structure after introduction of the 2011 ACGME resident duty hour standards (Smith and Stevenson). 2014;14:155-8
- Do mentors matter in graduating pediatrics residents' career choices? (Umoren and Frintner). 2014;14:348-52
- Influence of a systems-based approach to prescribing errors in a pediatric resident clinic (Condren et al). 2014;14:485-90
- Pediatric residency program handover: before and after the ACGME requirement (Held et al). 2014;14:610-6
- Pediatric resident education in quality improvement (QI): a national survey (Craig et al). 2014;14:54-61
- The pediatrics milestone pilot project: perspectives of current pediatric residents (Tocco et al). 2014;14:S8-9
- Predictors of resident satisfaction in caring for limited English proficient families: a multisite study (Hernandez et al). 2014;14:173-80
- Quality improvement educational practices in pediatric residency programs: survey of pediatric program directors (Mann et al). 2014;14:23-8
- Quality improvement skills for pediatric residents: from lecture to implementation and sustainability (Philibert et al). 2014;14:40-6
- Residency exposures and anticipated future involvement in community settings (Goldshore et al). 2014;14:341-7
- Simulation Use for Global Away Rotations (SUGAR): preparing residents for emotional challenges abroad—a multicenter study (Butteris et al). 2014;14:533-41

- Domain of competence: medical knowledge (Englander and Carraccio). 2014;14:S36-7

L**Latino; see Hispanic Americans****Learning**

- The 2011 ACGME standards: impact reported by graduating residents on the working and learning environment (Schumacher et al). 2014;14:149-54
- Creating a continuum of learning (Aschenbrenner). 2014;14:S4-5
- Developing a quality and safety curriculum for fellows lessons learned from a neonatology fellowship program (Gupta et al). 2014;14:47-53
- Domain of competence: practice-based learning and improvement (Burke et al). 2014;14:S38-54
- Educating for quality: quality improvement as an activity of daily learning to improve educational and patient outcomes (Co). 2014;14:1-3

Lectures

- Quality improvement skills for pediatric residents: from lecture to implementation and sustainability (Philibert et al). 2014;14:40-6

Legislation as topic

- Legislative advocacy: evaluation of a grand rounds intervention for pediatricians (Bensen et al). 2014;14:181-5

Length of stay

- Effect of using pediatric emergency department virtual observation on inpatient admissions and lengths of stay (Cator et al). 2014;14:510-6

Life cycle stages

- Systematic evidence-based quality measurement life-cycle approach to measure retirement in CHIPRA (Dougherty et al). 2014;14:S97-103

M**Medicaid**

- Using Medicaid and CHIP claims data to support pediatric quality measurement: lessons from 3 centers of excellence in measure development (Gidengil et al). 2014;14:S76-81

Medication adherence

- Complementary and alternative medicine use and adherence to asthma medications among Latino and non-Latino white families (McQuaid et al). 2014;14:192-9

Medication errors

- Influence of a systems-based approach to prescribing errors in a pediatric resident clinic (Condren et al). 2014;14:485-90
- Liquid medication dosing errors in children: role of provider counseling strategies (Yin et al). 2014;14:262-70

Medicine

- New program requirements present challenges and inspire innovations in med-peds programs (Gardner et al). 2014;14:556-8

Mental health

- The current and ideal state of mental health training: pediatric program director perspectives (Green et al). 2014;14:526-32
- Mental health beliefs and barriers to accessing mental health services in youth aging out of foster care (Sakai et al). 2014;14:565-73

- Parental psychological distress and children's mental health: results of a national survey (Amrock and Weitzman). 2014;14:375-81
- Risk score for predicting adolescent mental health problems among children using parental report only: the TRAILS study (Burger et al). 2014;14:589-96

Mental health services

- Mental health beliefs and barriers to accessing mental health services in youth aging out of foster care (Sakai et al). 2014;14:565-73

Mentors

- Do mentors matter in graduating pediatrics residents' career choices? (Umoren and Frintner). 2014;14:348-52
- The value of speed mentoring in a pediatric academic organization (Serwint et al). 2014;14:335-40

Mothers

- Which African American mothers disclose psychosocial issues to their pediatric providers? (Godoy et al). 2014;14:382-9

N

Neonatology

- Developing a quality and safety curriculum for fellows lessons learned from a neonatology fellowship program (Gupta et al). 2014;14:47-53

Nurse clinicians

- Education in quality improvement for pediatric practice: an online program to teach clinicians QI (Bundy et al). 2014;14:517-25

O

Obesity

- Exploring innovative approaches and patient-centered outcomes from positive outliers in childhood obesity (Sharifi et al). 2014;14:647-56
- Parents' obesity-related behavior and confidence to support behavioral change in their obese child: data from the STAR study (Arsenault et al). 2014;14:456-62
- Population-level obesity surveillance: monitoring childhood body mass index z-score in a safety-net system (Davidson et al). 2014;14:633-9
- Prevalence of overweight and obesity in a large clinical sample of children with autism (Broder-Fingert et al). 2014;14:408-14

Oral health

- Oral health opinions and practices of pediatricians: updated results from a national survey (Quinonez et al). 2014;14:617-24

Outcome assessment (health care)

- Advancing children's health care and outcomes through the pediatric quality measures program (Mistry et al). 2014;14:S19-26
- Considerations and evidence for an ADHD outcome measure (Woods et al). 2014;14:S54-60
- Parental limited English proficiency and health outcomes for children with special health care needs: a systematic review (Eneriz-Wiemer). 2014;14:128-36
- School-located influenza vaccination with third-party billing: outcomes, cost, and reimbursement (Kempe et al). 2014;14:234-40
- Sex differences in adult outcomes by changes in weight status from adolescence to adulthood: results from add health (Chung et al). 2014;14:448-55

Outpatients

- Factors associated with timing of first outpatient visit after newborn hospital discharge (O'Donnell). 2014;14:77-83

Overweight

- Prevalence of overweight and obesity in a large clinical sample of children with autism (Broder-Fingert et al). 2014;14:408-14

P

Pain clinics

- Correlates of complementary and alternative medicine use in a pediatric tertiary pain center (Vinson et al). 2014;14:491-6

Papillomavirus vaccines

- Uptake of human papillomavirus vaccine among adolescent males and females: immunization information system sentinel sites, 2009–2012 (Cullen et al). 2014;14:497-504

Parental notification

- Risk score for predicting adolescent mental health problems among children using parental report only: the TRAILS study (Burger et al). 2014;14:589-96

Parents

- Enhancing the electronic health record to increase counseling and quit-line referral for parents who smoke (Sharifi et al). 2014;14:478-84
- Latino parents' perspectives on barriers to autism diagnosis (Zuckerman et al). 2014;14:301-8
- Novel immunization reminder/recall approaches: rural and urban differences in parent perceptions (Saville et al). 2014;14:249-55
- Parental limited English proficiency and health outcomes for children with special health care needs: a systematic review (Eneriz-Wiemer). 2014;14:128-36
- Parental psychological distress and children's mental health: results of a national survey (Amrock and Weitzman). 2014;14:375-81
- Parents' obesity-related behavior and confidence to support behavioral change in their obese child: data from the STAR study (Arsenault et al). 2014;14:456-62
- School-located influenza vaccination with third-party billing: what do parents think? (Kempe et al). 2014;14:241-8

Patient care

- Beyond day 30 (Kaye and Johnson). 2014;14:330-1
- Domain of competence: patient care (Schumacher et al). 2014;14:S13-35

Patient discharge

- Factors associated with timing of first outpatient visit after newborn hospital discharge (O'Donnell). 2014;14:77-83

Patient handoff

- Pediatric residency program handover: before and after the ACGME requirement (Held et al). 2014;14:610-6

Patient outcome assessment

- Exploring innovative approaches and patient-centered outcomes from positive outliers in childhood obesity (Sharifi et al). 2014;14:647-56
- Patient reported outcomes as indicators of pediatric health care quality (Bevans et al). 2014;14:S90-6

Patient protection and affordable care act

- Children and the patient protection and affordable care act opportunities and challenges in an evolving system (Keller and Chamberlain). 2014;14:225-33

Patient readmission

- Challenges to measuring variation in readmission rates of neonatal intensive care patients (Lorch et al). 2014;14:S47-53
- Impact of newborn follow-up visit timing on subsequent ED visits and hospital readmissions: an instrumental variable analysis (O'Donnell). 2014;14:84-91
- Measuring pediatric hospital readmission rates to drive quality improvement (Nakamura et al). 2014;14:S39-46

Patient simulation

- Simulation Use for Global Away Rotations (SUGAR): preparing residents for emotional challenges abroad—a multicenter study (Butteris et al). 2014;14:533-41

Pediatrics

- Advancing children's health care and outcomes through the pediatric quality measures program (Mistry et al). 2014;14:S19-26
- Advancing the science of measurement in pediatric quality of care (Kuhlthau et al). 2014;14:S1-3
- An AHRQ and CMS perspective on the pediatric quality measures program (Dougherty et al). 2014;14:S17-8
- Asthma treatment decisions by pediatric residents do not consistently conform to guidelines or improve with level of training (Okelo et al). 2014;14:287-93
- Burnout in pediatric residents over a 2-year period: a longitudinal study (Pantaleoni et al). 2014;14:167-72

- Caregiver low health literacy and nonurgent use of the pediatric emergency department for febrile illness (Morrison et al). 2014;14:505-9
- Challenges and potential solutions to educating learners about pediatric complex care (Bogetz et al). 2014;14:603-9
- Changes to pediatric clerkships' nighttime structure after introduction of the 2011 ACGME resident duty hour standards (Smith and Stevenson). 2014;14:155-8
- A comprehensive model to build improvement capability in a pediatric academic medical center (Kaminski et al). 2014;14:29-39
- Concept and measurement of pediatric value (Forrest and Silber). 2014;14:S33-8
- Correlates of complementary and alternative medicine use in a pediatric tertiary pain center (Vinson et al). 2014;14:491-6
- The current and ideal state of mental health training: pediatric program director perspectives (Green et al). 2014;14:526-32
- Determinants of career satisfaction among pediatric hospitalists: a qualitative exploration (Leyenaar et al). 2014;14:361-8
- Developing measures for pediatric quality: methods and experiences of the CHIPRA pediatric quality measures program grantees (Byron et al). 2014;14:S27-32
- Do mentors matter in graduating pediatrics residents' career choices? (Umoren and Frintner). 2014;14:348-52
- Education in quality improvement for pediatric practice: an online program to teach clinicians QI (Bundy et al). 2014;14:517-25

Pregnancy

Interaction between maternal prepregnancy body mass index and gestational weight gain shapes infant growth (Heerman et al). 2014;14:463-70

Prevalence

Prevalence of overweight and obesity in a large clinical sample of children with autism (Broder-Fingert et al). 2014;14:408-14

Professional competence

Domain of competence: personal and professional development (Hicks et al). 2014;14:S80-97

Domain of competence: professionalism (Ludwig). 2014;14:S66-9

Professional practice

Quality improvement educational practices in pediatric residency programs: survey of pediatric program directors (Mann et al). 2014;14:23-8

Psychology

Which African American mothers disclose psychosocial issues to their pediatric providers? (Godoy et al). 2014;14:382-9

Public-private collaboration

Provider attitudes toward public-private collaboration to improve immunization reminder/recall: a mixed-methods study (Albright et al). 2014;14:62-70

Q**Quality assurance, health care**

Quality measures and the practicing pediatrician: perspectives from the American Academy of Pediatrics (Sachdeva et al). 2014;14:S10-1

Quality improvement

A comprehensive model to build improvement capability in a pediatric academic medical center (Kaminski et al). 2014;14:29-39

Domain of competence: practice-based learning and improvement (Burke et al). 2014;14:S38-54

Educating for quality: quality improvement as an activity of daily learning to improve educational and patient outcomes (Co). 2014;14:1-3

Education in quality improvement for pediatric practice: an online program to teach clinicians QI (Bundy et al). 2014;14:517-25

Maintenance of certification and pediatrics milestones-based assessment: an opportunity for quality improvement through lifelong assessment (Moyer). 2014;14:S6-7

Measuring pediatric hospital readmission rates to drive quality improvement (Nakamura et al). 2014;14:S39-46

Pediatric resident education in quality improvement (QI): a national survey (Craig et al). 2014;14:54-61

Quality improvement educational practices in pediatric residency programs: survey of pediatric program directors (Mann et al). 2014;14:23-8

Quality improvement skills for pediatric residents: from lecture to implementation and sustainability (Philibert et al). 2014;14:40-6

Quality of health care

Advancing the science of measurement in pediatric quality of care (Kuhlthau et al). 2014;14:S1-3

An AHRQ and CMS perspective on the pediatric quality measures program (Dougherty et al). 2014;14:S17-8

Child and adolescent health care quality and disparities: are we making progress? (Dougherty et al). 2014;14:137-48

Developing a quality and safety curriculum for fellows lessons learned from a neonatology fellowship program (Gupta et al). 2014;14:47-53

Family impacts among children with autism spectrum disorder: the role of health care quality (Zuckerman et al). 2014;14:398-407

Patient reported outcomes as indicators of pediatric health care quality (Bevans et al). 2014;14:S90-6

Quality of life

Differing perceptions regarding quality of life and inpatient treatment goals for children with severe disabilities (Nolan et al). 2014;14:574-80

Questionnaires

The Transition Readiness Assessment Questionnaire (TRAQ): its factor structure, reliability, and validity (Wood et al). 2014;14:415-22

R**Randomized controlled trials as topic**

Training pediatric residents to provide parent education: a randomized controlled trial (McCormick et al). 2014;14:353-60

Reference standards

Young and reckless? greater standardization and transparency of performance is needed for pediatric performance measures (Austin et al). 2014;14:S15-6

Referral and consultation

Factors associated with early intervention referral and evaluation: a mixed methods analysis (Jimenez et al). 2014;14:315-23

Refugees

The double disability of refugee children (Minhas). 2014;14:8-9

Reliability and validity; see Reproducibility of results**Reproducibility of results**

The Transition Readiness Assessment Questionnaire (TRAQ): its factor structure, reliability, and validity (Wood et al). 2014;14:415-22

Research

The National Children's Study 2014: commentary on a recent national research council/institute of medicine report (McCormick et al). 2014;14:545-6

The research home: partnering with families (Hoberman). 2014;14:549-53

Transition care: future directions in education, health policy, and outcomes research (Sharma et al). 2014;14:120-7

Retirement

Systematic evidence-based quality measurement life-cycle approach to measure retirement in CHIPRA (Dougherty et al). 2014;14:S97-103

Rural population

Novel immunization reminder/recall approaches: rural and urban differences in parent perceptions (Saville et al). 2014;14:249-55

S**Safety**

Developing a quality and safety curriculum for fellows lessons learned from a neonatology fellowship program (Gupta et al). 2014;14:47-53

Keeping children safe and well: an APA symphony in four movements (Jaffe). 2014;14:109-14

Schools

Middle school student attitudes about school drinking fountains and water intake (Patel et al). 2014;14:471-7

School-located influenza vaccination: can collaborative efforts go the distance? (Humiston et al). 2014;14:219-20

School-located influenza vaccination with third-party billing: outcomes, cost, and reimbursement (Kempe et al). 2014;14:234-40

School-located influenza vaccination with third-party billing: what do parents think? (Kempe et al). 2014;14:241-8

Self-assessment

The Transition Readiness Assessment Questionnaire (TRAQ): its factor structure, reliability, and validity (Wood et al). 2014;14:415-22

Sex characteristics

Sex differences in adult outcomes by changes in weight status from adolescence to adulthood: results from add health (Chung et al). 2014;14:448-55

Sex differences; see Sex characteristics

Sleep

Sleep timing moderates the concurrent sleep duration–body mass index association in low-income preschool-age children (Miller et al). 2014;14:207-13

Smoke

Enhancing the electronic health record to increase counseling and quit-line referral for parents who smoke (Sharifi et al). 2014;14:478-84

Smoking

The relative roles of types of extracurricular activity on smoking and drinking initiation among tweens (Adachi-Mejia et al). 2014;14:271-8

Social determinants of health

Assessing and managing the social determinants of health: defining an entrustable professional activity to assess residents' ability to meet societal needs (Klein et al). 2014;14:10-3

Can a video curriculum on the social determinants of health affect residents' practice and families' perceptions of care? (Klein et al). 2014;14:159-66

Social skills

Domain of competence: interpersonal and communication skills (Benson). 2014;14:S55-65

Societies, medical

Strengthening the associate program director workforce: needs assessment and recommendations (Narayan et al). 2014;14:332-4

The value of speed mentoring in a pediatric academic organization (Serwint et al). 2014;14:335-40

Sports

The relative roles of types of extracurricular activity on smoking and drinking initiation among tweens (Adachi-Mejia et al). 2014;14:271-8

Stress, psychological

Parental psychological distress and children's mental health: results of a national survey (Amrock and Weitzman). 2014;14:375-81

Students

Middle school student attitudes about school drinking fountains and water intake (Patel et al). 2014;14:471-7

Survey; see Data collection**T****Teaching**

Education in quality improvement for pediatric practice: an online program to teach clinicians QI (Bundy et al). 2014;14:517-25

Teaching rounds

Family-centered rounds in theory and practice: an ethnographic case study (Subramony et al). 2014;14:200-6

Technology

Pediatrics and the lure of technology (Crain). 2014;14:4-7

U**United States**

Baby gate–related injuries among children in the United States, 1990–2010 (Cheng et al). 2014;14:256-61

Depression screening in adolescents in the United States: a national study of ambulatory office-based practice (Zenlea et al). 2014;14:186-91

Urban population

Novel immunization reminder/recall approaches: rural and urban differences in parent perceptions (Saville et al). 2014;14:249-55

V**Vaccination**

School-located influenza vaccination: can collaborative efforts go the distance? (Humiston et al). 2014;14:219-20

School-located influenza vaccination with third-party billing: outcomes, cost, and reimbursement (Kempe et al). 2014;14:234-40

School-located influenza vaccination with third-party billing: what do parents think? (Kempe et al). 2014;14:241-8

W**Washington**

Evaluating Washington State's immunization information system as a research tool (Jackson et al). 2014;14:71-6

Weight gain

Interaction between maternal prepregnancy body mass index and gestational weight gain shapes infant growth (Heerman et al). 2014;14:463-70

Work

The 2011 ACGME standards: impact reported by graduating residents on the working and learning environment (Schumacher et al). 2014;14:149-54

Workload

Changes to pediatric clerkships' nighttime structure after introduction of the 2011 ACGME resident duty hour standards (Smith and Stevenson). 2014;14:155-8

Workplace

The pediatrics milestones: pursuit of a national system of workplace-based assessment through key stakeholder collaboration (Hicks et al). 2014;14:S10-2

Wounds and injuries

Baby gate–related injuries among children in the United States, 1990–2010 (Cheng et al). 2014;14:256-61

Injuries among children with autism spectrum disorder (Jain et al). 2014;14:390-7
